PRODUCT DATA SHEET

Product Name **Washing Buffer W 10x stock**

Product Code **#AP0502 500** **500ml**

Composition
Tris based buffer for Western blot washing. Contains detergents.

Presentation
Washing Buffer W is supplied as a 10x stock solution in 500 ml volume. The solution has a clear, colourless appearance.

Application
Washing Buffer W is designed for washing western blots. We do not recommend using it in other immunological applications.

Use
To prepare the washing buffer, take 1 part of stock solution and 9 parts of demineralised water, mix well and use.

Stability and Storage
The preparation is stable for 2 years when stored unopened at -20^{0}C. The solution can tolerate freezing-thawing. Every lot is issued with a certificate indicating the expiry date.

After opening, store at +4^{0}C in the refrigerator and use within 6 months.

Certification
Each lot is certified for compliance to specifications. The product is produced under DIN EN ISO 9001:2008 Quality Management system for the products in Immunoassay Development and Measurement, Products for Bioanalytics and Immunoassays.
